## Product overview

<b>Tub</b> Article #: 1		<ul style="list-style-type: none"><li>•10 liter capacity   580 grams   All-round sealing lip with bending metal elements that can be shaped as often as required</li><li>•2 carrying handles   pump lug 34 x 34 x 12.5   resistant to oil, glycol and various other liquids</li></ul>	Rrp: 95,00 €
<b>Pumping system</b> Article #: 5		<ul style="list-style-type: none"><li>•Powerful pumping capacity of 10 liters/min.   0,5 bar   up to 60 degrees</li><li>•Power supply unit to operate the pump and the battery</li><li>•Carrying bag and 3 m water hose with mounting clip</li></ul>	Rrp: 95,00 €
<b>Battery</b> Article #: 6		<ul style="list-style-type: none"><li>•Special battery note: switch on for charging! 6 Ah lithium-ion battery</li><li>•Per battery charge approx. 3.5 hours running time at 1,500 liters flow rate</li><li>•Shockproof, splash-proof in operation</li></ul>	Rrp: 109,00 €
<b>Slide</b> Article #: 58		<ul style="list-style-type: none"><li>•For targeted conduction of liquids</li><li>•Suspension lugs with strong neodymium magnets and eyelets</li><li>•Can be shaped infinitely by bending metal elements</li><li>•Magnets of slide are combinable with the tub and splash guards</li></ul>	Rrp: 51,00 €
<b>Single-splash-guard 1x22</b> Article #: 56		<ul style="list-style-type: none"><li>•Single-splash-guard with one 22 mm opening</li><li>•Optimal splash protection on pipes</li><li>•Can be shaped as often as required thanks to bending metal elements</li></ul>	Rrp: 39,00 €
<b>Double-splash-guard 2x15</b> Article #: 57		<ul style="list-style-type: none"><li>•Double-splash-guard with two openings each 15 mm, spaced 50 mm apart</li><li>•Optimum splash protection on pipes</li><li>•Can be shaped as often as required thanks to bending metal elements</li></ul>	Rrp: 39,00 €
<b>Funnel 40</b> Article #: 86		<ul style="list-style-type: none"><li>•Small funnel with 40 x 40 cm opening</li><li>•3/4 inch brass hose connection for the drain</li><li>•4 eyelets with length-adjustable suspension system</li><li>•Perfect for high installation situations   perfect pipe bursting aid</li></ul>	Rrp: 149,00 €
<b>Funnel 80</b> Article #: 87		<ul style="list-style-type: none"><li>•Large funnel with 80 x 80 cm opening</li><li>•3/4 inch brass hose connection for the drain</li><li>•4 eyelets with length-adjustable suspension system</li><li>•Perfect for work on drains and broken ceiling pipes</li></ul>	Rrp: 229,00 €

## Product overview

### Set combinations

<b>Complete-set</b> Article #: 4		Tub, pumping system, battery, slide, single-splash-guard, double-splash-guard	Rrp: 428,00 €
<b>Set with battery</b> Article #: 3		Tub, pumping system, battery, power supply unit, carrying bag	Rrp: 299,00 €
<b>Set without battery</b> Article #: 2		Tub, pumping system, power supply unit, Carrying bag	Rrp: 190,00 €
<b>Helper-set</b> Article #: 88		Slide, single-splash-guard, double-splash-guard	Rrp: 129,00 €

### Accessories

<b>Repair kit</b> Article #: 69		Consisting of 3 strong adhesive patches	Rrp: 5,00 €
<b>Power supply unit</b> Article #: 16		Power supply unit 12,6V3A	Rrp: 32,00 €
<b>Pump with hose and mounting clip</b> Article #: 9		Pump with hose and mounting clip	Rrp: 62,00 €
<b>Pump</b> Article #: 17		Pump (without hose)	Rrp: 43,00 €
<b>Bending metal element</b> Article #: 47		Bending metal element for the tub, 1 piece	Rrp: 19,00 €
<b>Carrying bag</b> Article #: 22		Bag with separate power supply pocket and stable suspension lug	Rrp: 25,00 €

DERBLAUE® - Support for your team

Efficiency for your business

**The tub:  
Bend me!**

**DERBLAUE®**  
Highly flexible liquid collection systems

- Dimension: 34 cm x 34 cm x 12,5 cm
- 10 liter capacity
- Can be folded extra small, fits in every tool box
- Extremely stable bending metal elements, that can be shaped as often as required
- Tapered/conical cut: the sealing lip will be pressed to the surface with a rising water level
- Resistant to all common fluids, a.o. dirty heating water, glycol, hydraulic- and heating-oil and many more

Article #: 1  
Rrp: 95,00 €

**Efficiency for your business**

# The tub: Highly flexible, maximally efficient.

## DERBLAUE® - Tub

Is the basic equipment of every craftsman, that deals with liquids.

Whether narrow, low or deep installation situations: the tub adapts perfectly to any surface thanks to the extremely strong and robust bending metal elements.

In convoluted, difficult customer service operations

Reparation of angle valves or siphons

Heat pump service

**DERBLAUE®**

**Efficiency for your business**

# The pumping system: The best pump is the one, that you always carry with you.

**DERBLAUE®**  
Highly flexible liquid collection systems

Pump with 3 m hose and mounting clip

Power supply unit

Optionally with battery  
not included in the scope of delivery of the  
pumping system

Carrrying bag

- The pumping system contains:  
Pump, 3 m hose with mounting clip, power supply unit and carrying bag
- 45 min. dry run
- 5 mm deep suction
- Push-on sieve 1 mm mesh size
- Resistant up to 60 degrees C°
- Resistant to all common fluids, a.o. dirty heating water, glycol coolant and many more

# The pumping system: The best pump is the one, that you always carry with you.

## DERBLAUE® Pumping system

Is a logical addition to the tub, so that liquids can be drained in a controlled way.

Even without the tub, the pump can be used to drain storage tanks, shafts or toilets.

Maximum efficiency and true to the motto „Let it flow!": While the pump is running, the hands are free for other activities.

Efficiency for your business

**The set with battery:**  
**Optimally equipped for every construction site.**

**DERBLAUE®**  
Highly flexible liquid collection systems

Everything is safely stowed in the carrying bag. It is an asset for every vehicle.

No matter how tight, narrow or convoluted: Even radiators in complex installation situations can be drained in a fraction of the usual time.

No more dragging heavy buckets! Empty storage tanks easily with DERBLAUE.

**The funnels:**  
**Ceiling pipe breaks and overhead work:**  
**from now on - simple and clean!**

**DERBLAUE®**  
Highly flexible liquid collection systems

Working with liquids above the height of approx. 50cm, the funnels facilitate the work enormously. Pumps can be exchanged cleanly, quickly and back-friendly with a 3/4 inch hose.

**Efficiency for your business**

# The helper-set: The perfect addition to the set with battery.

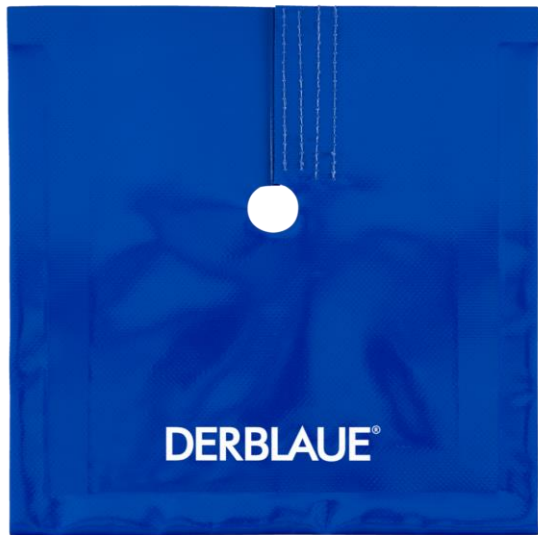

The slide and the two splash-guards serve to conduct liquids into the tub and as a splash protection. Also here, the bending metal elements were built in, so that slide and splash-guards can be perfectly adapted to any surface. The slide has neodymium magnets, which can be connected to the bending metal elements of the tub or the splash-guards, so that the items can be combined differently in the most easy and quick way. Damage caused by dirty water is finally a thing of the past. Customers are thrilled.

DERBLAUE® - Support for your team  
Efficiency for your business

# DERBLAUE®:

## Professionals know why.

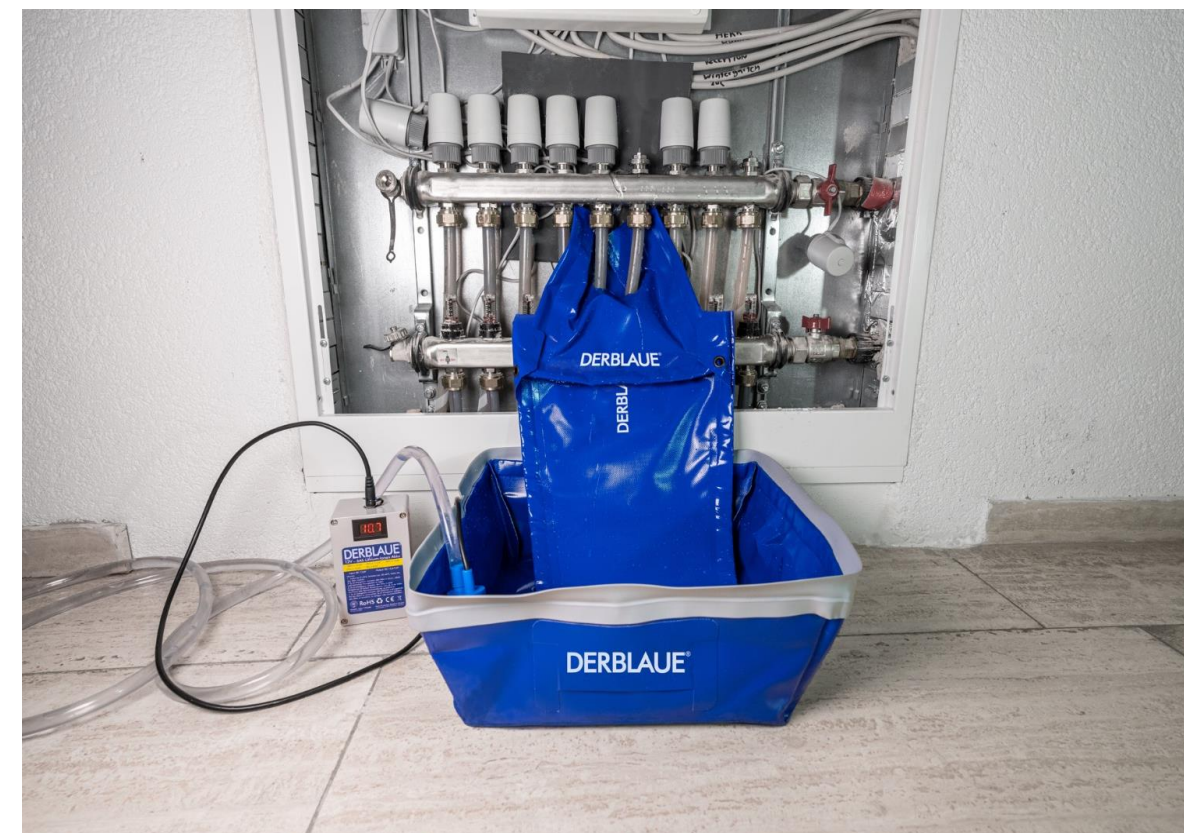

With DERBLAUE® you can stay calm in any installation situation, no matter how tricky. Colleagues and customers will be impressed by the speed with which maintenance, service or dismantling is carried out and how cleanly the construction site is left behind.

# DERBLAUE®

Highly flexible liquid collection systems

Maximum efficiency and cleanliness thanks to the combination of single-splash-guard, slide and funnel. Slide and single-splash-guard are firmly connected via the magnets and bending metal elements; the suspension of the funnel is hung over the pump, the liquid is discharged with a 3/4 inch hose.

The double-splash-guard 2 x 15 mm is fastened around the pipes and connected to the slide by magnet. The water flows into the tub in a clean and controlled way and is pumped out quickly and efficiently with the pumping system and battery.

The slide serves as a splash protection and directs the water from the valve precisely into the tub. The pump, powered by battery, discharges the water from the tub to the drain.
